

**MEASLES-RUBELLA (MR) VACCINATION CAMPAIGN**  
**AIIMS, Bhubaneswar** joins in our country's resolution to eliminate Measles and control Rubella.

Government of India has launched Measles-Rubella (MR) campaign in the country covering all children of 9 months to below 15 years, in a phased manner. A massive public health initiative, the MR vaccination campaign is to target over 400 million children in 36 states and UTs.

The campaign in Odisha will run from 29/01/2018 to 26/03/2018 targeted to

cover around 1.13 crore children in the state. Vaccination will be done in schools during the initial two weeks followed by vaccination at community level for next two weeks and the last week will be devoted to mop up activities in low coverage areas, both in schools and the community. This will be followed by provision of MR vaccine in routine immunization

wherein, MR vaccine will replace measles vaccine and will be given as two doses schedule.

AIIMS, Bhubaneswar joins in our country's resolution to eliminate Measles and control Rubella and the MR vaccine will be provided free of cost at the immunization clinic (Dept. of CM&FM) Room no: 24, Ground floor, OPD Block-C under the campaign w.e.f 29 Jan 2018.
